THE SOUTH'S TULIP GROWERS

Buy Home Grown Bulbs

Boost Your Home Industries

*Our farms located 18 miles from Washington N. C.
at Terra Ceia, (Heavenly Land) N. C.*

Dear Friends and Customers:

It will soon be time again of thinking about planting your Fall bulbs, if you wish to have a beautiful garden next Spring.

We take great courage and are proud that we may offer you our bulbs for sale again. The splendid success we have had in growing bulbs here and the many letters of appreciation we have received make us look in the future with confidence, and we are thankful that we may do our part to serve you, and make this great country of ours more flower and garden conscious, which undoubtedly will make it a still better country to live in.

As is well known it was our intention at first to grow mainly cut flowers for the market, but on account of the great demand there has developed for our bulbs, we are trying now to get better equipped to take care of this demand, and for this reason we have considerably enlarged our new list.

As there are many varieties of Tulips which do not grow satisfactory in this country specially in the South, we are only keeping these varieties on our list, which have given us proof of their good qualities by our experience in growing them.

And as there are quite some people who prefer to purchase imported bulbs, we are also prepared to fill this demand, as we have bought some of the finest bulbs which can be obtained in Holland.

All bulbs on this list should be planted during the Fall and we consider the best time between October 15 and November 15 although they can be planted sooner or later.

Plant Crocus about 2 inches deep.

Dutch Iris about 3 to 4 inches deep.

Tulips about 4 to 6 inches deep.

Daffodils and Hyacinths 5 to 6 inches deep.

Please enclose check or money order with your order—this will save C.O.D. charges. We pay the postage.

We give a special reduction to Woman's Clubs and Garden Clubs if ordered in quantities.
